SMS FLATSCREEN CL FST

A smart solution for lighter, ceiling-mounted screens.
SMS Flatscreen CL FST is our ceiling mounting for screens weighing up to 15 kg – a smart mounting that allows the screen to be turned down as far as 80°. This makes it possible to mount the screen high up and tilt it so that it is almost directly above the viewer (if desired). It is also possible to swivel the screen horizontally +/-90°. And the mounting can be cut to exactly the required length.
